

Example with Fungicide in Horticulture

**Non-ionic surfactant
With Fungicide Treatment**

**Result: Disease 10 Days Later
Reason: Washes-off**

**TopFilm™
With Fungicide Treatment**

**Result: No Disease 10 Days Later
Reason: TopFilm™ minimizes wash-off**

Provides Rainfastness with
Disease & Insect Control Products

Reduces number of spray cycles

Instead of spraying every 10 days, the applicator can now spray every 20 to 30 days, saving him at least 1/3 of re-application costs (labor, chemical, fuel).
