

TopFilm[®]F

Fertilizer Biostimulant Grain Derived

TopFilm[®]F is a liquid foliar fertilizer, derived from cereal grain materials with inherent natural amino acids that provide nutritional biostimulants.

TopFilm[®]F can be used in traditional agriculture, horticulture, ornamental, specialty crop production, as well as in forestry use.

Microsponge™ technology in **TopFilm[®]F** reduces the wash-off due to rainfall and overhead irrigation.

SKIN & EYE IRRITANT - GHS LEVEL 4
